*Redacted Public Version*

The description of the shoe compared to the product received is nothing as described this is false advertisement of the product that the consumer believes we're purchasing. The shoe itself is clearly a FAKE!! With glue residue still on the shoelaces with green shoes insoles. Stockx should be ashamed to not take accountability for this happening. I will never purchase from your company again.

Hey Stacey,  
I hope all is well with you today!  
Yes, an update is available for you. My apologies for the delay as I was out of the office due to a medical emergency.

Our Sr. Authenticator has completed the review of the authenticity of the sneakers received through order 33224695.

After review, it was concluded that your sneakers are 100% authentic as previously verified.

It was related that the overall construction of your Nike Dunk Low Next Nature sneakers, all points featured on the sneaker box label, and the details of the size tags within the sneakers all check out as legit!

When compared to a pair that may be on hand or released domestically or within the U.S., pairs obtained through authorized retail sources will vary slightly in construction points and appearance. This explains the Made In Indonesia featured on the size tag.

Peace of mind may be found in knowing that you may resell this pair on our platform, as long as they are in the same deadstock condition that you received them in. Also, it may help to keep the tag attached to the sneaker to link it back to your order.

I am happy that I was able to get this information over to you and hope it helps alleviate your concern about authenticity. It was a pleasure to be able to have your Nike Dunk Next Nature shoes confirmed to be 100% authentic and free of uncommon imperfections for you. If we may assist with anything else later in time, message us and we will be sure to help you out.

Thanks for choosing StockX! Enjoy the rest of your day!  
JD

Good Day Stacey,  
Thank you for providing these images for review. To initiate your review of authenticity with our Sr. Authenticator, we'll need pictures of the sneaker box size label, the size tags inside the sneakers that show the style code, and all sides of your sneakers. Once these images are received I'll be sure to follow up with you.  
Respectfully,  
JD
